

OPS MANUAL REGISTRATION/CHANGE FORM

You Need To Register Your OPS Manuals

The new publisher of the Ontario Provincial Standards is Publications Ontario. We are developing a list of current and new owners of OPS manuals in order to notify them of any new revisions to the manuals.

To assist us in developing this list we need you to register your previously and newly purchased OPS manuals with us. Please take the time to fill out this form and send it to Ontario Provincial Standards section at 905-704-2051 (fax) or Ontario.Prov.Standards@ontario.ca. You need to register only once, unless information on this form changes.

One form will register all of your OPS hard-copy manuals and CDs with us. If you purchase other OPS volumes or your contact information changes, you need to complete another form and send it to Amanda indicating the new purchase or contact information.

Please print clearly using a black ink pen if completing form manually.
